

Hillside Public Schools

Annual District Wellness Policy Summary Progress Report

For the 2017-18 school year, all of the Hillside Schools are compliant with our District's Wellness Policy. This determination was made after a school by school review was conducted by myself and either the Principal or Principal's designee at each school responsible for compliance of the Wellness Policy.

There are no recommendations for changes to the district's wellness policy at this time.

As a result of the goals and objectives of the district wellness policy already being met at all schools, no action plan is needed at this time to achieve any of the schools wellness goals or wellness objectives for the 2018-19 school year.

Review of compliance with the district' wellness policy will again take place during the 2018-19 school year to confirm that all of the goals and objectives of the district's wellness policy continue to be accomplished.
